**To Whom it May Concern**

*Re: Support and endorsement for Dr Christina Welch's project to write a guidebook for the St Vincent Botanical Garden*

Please accept this letter as full support for Dr Christina Welch's project to write a high-quality colour guidebook for the St Vincent Botanical Garden. Dr Welch has been supporting the Garden for some time and we have worked closely with her in the past to produce a pop-up exhibition about the Garden under the superintendentship of Dr Alexander Anderson (d.1811).

We have been involved in discussions about the contents of the guidebook and will be involved in the process throughout, to ensure the guidebook meets the needs of visitors.

We are delighted that the Prime Minister will be writing the foreword and are grateful for the support of sponsors.

Kind regards

Director  
National Parks Authority
